2018 CALL FOR PROPOSALS : ISFP-2018-AG-CT-PROTECT

CALL FOR PROPOSALS FOR PROJECTS ON THE PROTECTION OF PUBLIC SPACES, CHEMICAL, BIOLOGICAL, RADIOLOGICAL AND NUCLEAR (CBRN), CRITICAL INFRASTRUCTURE PROTECTION (CIP), EXPLOSIVES AND EXPLOSIVES PRECURSORS

1. INTRODUCTION

Article 67(3) of the Treaty on the Functioning of the European Union (TFEU) declares as the European Union's objective ensuring a high level of security within an area of freedom, security and justice.

To achieve this objective, enhanced actions at European Union level should be taken to protect people and goods from increasingly transnational threats and to support the work carried out by Member States' competent authorities. Terrorism, organised crime, itinerant crime, drug trafficking, corruption, cybercrime, trafficking in human beings and arms, inter alia, continue to challenge the internal security of the Union.

The Internal Security Strategy for the European Union (Internal Security Strategy), adopted by the Council in February 2010, constituted a shared agenda for tackling these common security challenges and identified the following relevant strategic objectives for 2010-2014: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace and to increase Europe's resilience in the face of crises and disasters.

To promote the implementation of the Internal Security Strategy and to ensure that it becomes an operational reality, the Internal Security Fund (ISF Police) was set up.

In April 2015 the European Commission adopted the European Agenda on Security for the coming five years, which builds on the actions undertaken under the previous Internal Security Strategy, thus ensuring consistent and continued action. The European Agenda on Security represents an effective and coordinated response at European level to new and complex threats and sets out how the European Union can bring added value to support the Member States in ensuring security. It has identified the following three priorities: tackling terrorism and preventing radicalisation, disrupting organised crime and fighting cybercrime.

On the basis of the European Agenda on Security, the Council adopted in June 2015 the renewed European Union Internal Security Strategy 2015-2020 confirming tackling and preventing terrorism, radicalisation to terrorism and recruitment as well as financing related to terrorism, preventing and fighting serious and organised crime and preventing and fighting cybercrime as the main priorities for European Union's actions.

Legal basis of ISF Police are the following regulations:

- Regulation (EU) No 513/2014 of the European Parliament and of the Council of 16 April 2014 establishing the Instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014);
- Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014).

The ISF Police Regulation sets out two specific objectives, respectively:

(i) crime prevention, combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations;

(ii) enhancing the capacity of Member States and the Union for managing effectively security-related risks and crises, and preparing for and protecting people and critical infrastructure against terrorist attacks and other security-related incidents.

In conformity with Regulation (EU) No 514/2014 Article 6.2, in order to implement the ISF Police, the Commission has adopted, on **4 October 2018**¹, the 2018 Annual Work Programme for Union actions and emergency assistance, which includes this call for proposals.

On 18 October 2017, the Commission presented – as part of the Counter-Terrorism Package, two action plans. One focused on improving the protection of public spaces and the other aiming at strengthen CBRN security. Both action plans list initiatives which need to be implemented in the nearest future.

With the increasing number of attacks to public spaces and other soft targets in Europe, the European Commission has stepped up its efforts to address and mitigate such threats, by strengthening cooperation among EU Member States and supporting them in reinforcing soft target protection measures. In a new EU Action Plan on the Protection of Public Spaces, the Commission proposes more measures to better protect our citizens against attacks to public space. The action plan includes actions such as to enhance coordination at EU level, to develop better capacities to detect and mitigate threats, to improve the resilience of public spaces, as well as raising citizens awareness, and engaging more at regional and local level, as well as at international level.

The likelihood of CBRN attacks in the EU remains low, but the overall threat picture is evolving, and there is growing evidence suggesting that certain groups have not only the intention of acquiring CBRN weapons but also the knowledge and capacity to use them. EU Member States' authorities need to be therefore prepared to prevent an attack and if need be to respond to it in an efficient, coordinated manner. The new Action Plan on Strengthening CBRN security includes actions on enhancing knowledge of CBRN risks, reducing the accessibility of CBRN materials, enhancing preparedness and response to CBRN incidents as well as creating stronger internal-external links and engagement in CBRN Security.

Projects under this call should support the implementation of both Action Plans.

2. PRIORITIES OF THIS CALL FOR PROPOSALS

The present call for proposals aims at funding projects on the protection of public spaces, Chemical, biological, radiological and nuclear (CBRN), Critical Infrastructure Protection (CIP), explosives and explosives precursors.

Project applications submitted under the present call for proposals must address at least one of the following priorities:

¹ [C\(2018\)6336](#)

1. Improving the protection of public spaces and other soft targets in line with the EU Action Plan to improve the protection of public spaces;
2. Improving protection against CBRN attacks in line with the Action Plan to enhance preparedness against chemical, biological, radiological and nuclear security risks;
3. Enhancing the capacity of Member States' authorities and other stakeholders to implement the Regulation 98/2013, including the Commission Recommendation on the implementation of Regulation 98/2013;
4. Addressing CBRN-E as well as emerging threats to critical infrastructure and public spaces.

Projects must be aiming to achieve one or more of the following outcomes:

Protecting public spaces:

- Development, implementation and roll-out of new concepts of urban landscape design aiming at reducing the vulnerability of public spaces, offering shelters in case of active shooting attack, blocking the way of ramming vehicles and mitigating blast waves;
- Increase cross-sectoral preparedness of EU Member States' agencies and authorities to terrorist attack against public spaces, incl. via trainings, exercises and establishment of regional law enforcement training facilities providing comprehensive training programmes for law enforcement/security authorities in protection of public spaces and other soft targets. The training programmes should be closely aligned with the Commission's ongoing activities in this area;
- Development of cross-border, cross-sectoral cooperation and coordination mechanisms for first responders in the immediate response to terrorist attacks, incl. via trainings, exercises and exchange of best practice and lessons learned;
- Enhancing protection of public spaces, urban areas and other soft targets via trainings, sharing of best practices and awareness raising activities.

Strengthening CBRN security:

- Increase preparedness – in cooperation with law enforcement – of operators of confined public spaces such as concerts halls, shopping malls, supermarkets against CBRN threats;
- Increase awareness of high-risk CBRN materials amongst EU export control experts, including training programme;
- Explore possibilities of restricting further access for unauthorised individuals to CBRN materials and agents.

Commission Recommendation on the implementation of Regulation 98/2013:

- Capacity building in restricting and controlling the marketing and use of explosives precursors: Projects supporting the Commission Recommendation on the implementation of Regulation 98/2013 by, e.g., designing wide-reaching awareness-raising initiatives, increasing cross-border cooperation, identifying low-risk alternatives to high-risk chemicals, and/or developing innovative methods and tools for enforcing legislation and for helping public authorities and the supply chain assess their risks and vulnerabilities and comply with requirements and recommendations.

Emerging threats to critical infrastructure and public spaces:

- Increase protection against existing and new threats, including unmanned aerial vehicles (UAVs);
- Address the issue of insider threats in the context of private operators (outside the aviation sector).

Projects under this call should support the implementation of the Action Plans on improving the protection of public spaces and aiming at strengthen CBRN security. Considering that successful implementation of these Action Plans requires cooperation between public and private actors, project proposals submitted by a consortium composed of public and private entities would be particularly welcome.

Any action under this call for proposals shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union. Applications should pay appropriate attention to the effects of the project on individual rights and freedoms, as well as to possible remedies. In addition, any action under this call for proposals should comply with all relevant ethical principles and all applicable international, EU and national law on ethical issues while carrying out the project.

4. European added value	20	-
5. Expected results, dissemination, sustainability and long-term impact	10	-

If successful, it will conclude with the signature of a Grant Agreement, drawn up in euro and detailing the conditions and level of funding.

The Grant Agreement must be signed electronically first by the coordinator on behalf of the consortium and then by the European Commission. All co-beneficiaries must accede to the Grant Agreement by signing electronically the accession form to the grant.

Please note, that if international organisations are involved in the application, no other specific clauses applicable to international organisations than the ones already included in the Model Grant Agreement will be added.

Please note that the award of a grant does not establish any entitlement for subsequent years.

10. FINANCIAL PROVISIONS

10.1. General Principles

a) Non-cumulative award

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action (Submission Form Part B, section 6).

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun only where the Applicant can demonstrate the need to start the action before the Grant Agreement is signed. In any case, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) Co-financing

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the Beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

d) Balanced budget

The Budget Estimate of the action is to be included in the Application Form. It must have revenue and expenditure in balance and must be drawn up in euro.

Beneficiaries with general accounts in a currency other than the euro shall convert costs incurred in another currency into euro at the average of the daily exchange rates published in the C series of Official Journal of the European Union, determined over the corresponding reporting period.⁹ Where no daily euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion shall be made at the average of the monthly accounting rates established by the Commission and published on its [website](#), determined over the corresponding reporting period.

Beneficiaries with general accounts in euro shall convert costs incurred in another currency into euro according to their usual accounting practices.

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the Beneficiary must award the contract to the bid offering

⁹ For further guidance on exchange rate please consult the Guide for Applicants.

best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retaining the documentation for the event of an audit. Detailed information on subcontracting is provided in the Guide for Applicants.

e) Financial support to third parties

The applications may not envisage provision of financial support to third parties.

f) Non-profit rule

EU grants may not have the purpose or effect of producing a profit within the framework of the action. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the Beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the Beneficiary to carry out the action.

g) Full cost of purchase of equipment

If necessary to implement the action, the beneficiaries may incur the full cost of some equipment items, infrastructure or other assets (new or second-hand; as recorded in the beneficiary's accounts).

10.2. Maximum amount requested

The EU grant is limited to a co-funding rate of 90% of the total eligible costs of the action.

Consequently, part of the total eligible expenses must be financed from sources other than the EU grant (see section 10.1.c).

10.3. Payment arrangements

A pre-financing payment corresponding to maximum 80% of the EU grant amount will be transferred to the Coordinator after the signature of the Grant Agreement by both parties and in accordance with its terms.

The Commission will establish the amount of the final payment to be made to the Coordinator on the basis of the calculation of the final grant amount. If the total of earlier payments is higher than the final grant amount, the Beneficiaries will be required to reimburse the amount paid in excess by the Commission through a recovery order.
